

A modern, aesthetic Material 3 Expressive music player for Android.

 PLATFORM	ANDROID	 LANGUAGE	JAVA	LICENSE	GPL V3.0
 DESIGN		MATERIAL 3 EXPRESSIVE			

Overview

Tunexa is an elegant, high-performance music player crafted for Android. Designed with Google's Material 3 Expressive guidelines, Tunexa delivers a fluid, gesture-driven listening experience with dynamic album artwork palettes, high-resolution audio streaming, full offline library support, and a beautifully refined interface.

Features

Material 3 Expressive Interface

- **Dynamic Palette Theming:** The entire player dynamically adapts its color scheme to match the album artwork of whatever track is currently playing.
- **Sleek Mini-Player:** Minimalist, distraction-free collapsed player with borderless controls, clean typography, and real-time playback progress indicator.
- **Fluid Gestures & Transitions:** Smooth draggable bottom-sheet player with full predictive back gesture animations.
- **Dark & OLED Black Modes:** Built-in support for system dark mode and true OLED pitch-black contrast.

Core Playback Engine

- **AndroidX Media3 & ExoPlayer:** Industry-standard audio engine with seamless gapless playback.
- **System MediaSession:** Full lockscreen media controls, Bluetooth headset controls, and dynamic media notification integration.
- **Speed & Pitch Control:** Fine-grained playback speed and pitch adjustment with optional tempo locking.
- **Audio Equalizer Waves:** Interactive animated VuMeter indicators showing active playback across lists and search results.

Interactive Playing Queue

- **Bottom-Sheet Queue Manager:** View your upcoming playlist anytime with a single tap.
- **Drag-to-Reorder:** Reorder tracks on the fly using smooth drag handles (`ItemTouchHelper`).
- **Swipe or Tap to Remove:** Instantly manage your queue or jump directly to any song.

Synchronized Lyrics

- **Dedicated Lyrics View:** Full-screen, high-contrast synchronized lyrics display with smooth line scrolling.
- **Zero UI Overlap:** Intelligent mutual-exclusion transitions keep the lyrics screen independent of album art and player controls.
- **Quick Dismiss:** Built-in top header dismiss chevron and Android back-gesture support.

Discovery & Online Search

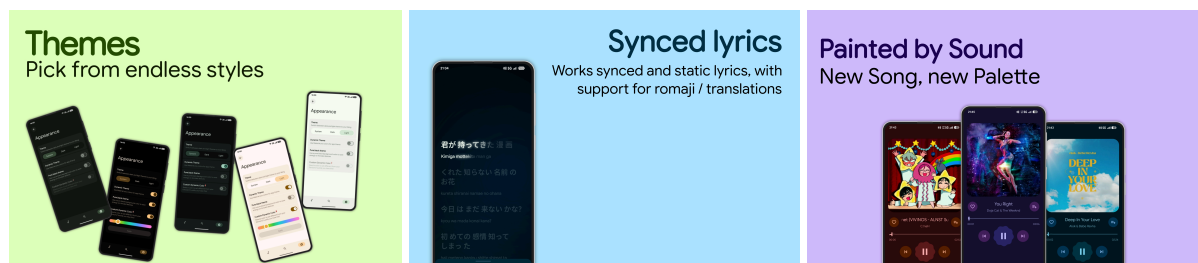

- **Curated Explore Screen:** Categorized playlists for *New Releases*, *Charts*, *Moods & Genres*, and *Podcasts*.
- **YouTube Music Catalog:** Streamlined online song discovery and recommendations alongside your local media library.
- **Ultra High-Definition Artwork:** Automatically enhances stream thumbnails to crisp 1080p+ album artwork.

100% Private & Ad-Free

- No advertisements.
- No user tracking or analytics.
- No accounts, sign-ins, or cloud lock-in.

Building from Source

Prerequisites

- **Android Studio Ladybug (2024.2+)** or newer
- **JDK 17** or **JDK 21**
- **Android SDK Platform 34+**
- Minimum SDK: **API 26 (Android 8.0)** | Target SDK: **API 35+**

Build Steps

1. Clone the repository:

```
git clone https://github.com/tirthgoyani11/tunexa.git
cd tunexa
```

2. Assemble Release APK:

```
./gradlew assembleRelease
```

3. Install to connected device:

```
adb install -r app/build/outputs/apk/release/app-arm64-v8a-release.apk
```

Requirements

- Android 8.0 (Oreo / API 26) or higher.
- ARM64-v8a or ARMv7a device architecture.
